

To include your product on [www.australiatravel.com](http://www.australiatravel.com) is simple and economical.

A link directly to your own site is provided and can be searched by region and category. A small description is also included to encourage browsers to click on your link.

### **Fast and simple!**

The cost is just \$15/mth debited to your nominated bank account or credit card. You would need only one booking per year to cover this cost and so your link from here is the best advertising dollars you could spend. There are no minimum contract periods and no further commissions charged for click throughs or bookings. It just doesn't get easier than that.

Simply send your request for a listing to [doc@australiatravel.com](mailto:doc@australiatravel.com) and include:

- Your web address
- Your preferred description
- Your bank account details

And watch your traffic and bookings improve.

To cancel at any time, just send an email and we'll cancel your link from the end of that month.

Regards
